The screenshot shows a patent search interface. The left pane displays a search history or list of results, including various patent numbers and descriptions. The right pane shows a detailed view of a patent document, with the search query '(retaining and member and holding and elongated and single and holding and recess and elongated and element and resilient and base and arm and recess and opening).clm.' highlighted. Below the search bar are buttons for 'Search', 'Browse', 'Queue', and 'Clear', along with checkboxes for 'Plurals' and 'Highlight all hit terms initially'. The interface includes tabs for 'BRS form', 'IS&R form', 'Image', 'Text', and 'HTML'. The main search results table has columns for 'Document', 'Issue', 'Page', 'Title', 'Current', 'Current X', 'Retrieve', 'Inventor', and 'S C P Image Dc'. At the bottom, there are buttons for 'Hits', 'Details', and 'HTML', and a status message 'Ready.' followed by a 'NUM' field.
